The Child Care Subsidy Program

To be eligible for the child care subsidy program families need have a need for child care (such as employment, training, Reach Up, etc) and meet the income eligibility guidelines.

The Vermont Child Care Subsidy Guidelines are based on the 1999 Federal Poverty Guidelines. Current guidelines are:

Family Size	Your family can be eligible for the subsidy program if you make a monthly income up to...
A family of 3 or less	\$2,586.00
A family of 4	\$3,115.00
A family of 5	\$3,645.00
A family of 6 or more	\$4,176.00

The amount of the subsidy paid by the state for a family varies on a sliding scale based on income. (Families with lower income receive higher subsidy payment.) Eligibility for 100% of the state subsidy rate is based on a gross monthly income by family size as shown below:

100% of the subsidy rate eligibility:

Family Size	Your family can be eligible for the subsidy program if you make a monthly income up to...
A family of 3 or less	\$1,157.00
A family of 4	\$1,392.00
A family of 5	\$1,627.00
A family of 6 or more	\$1,862.00

Reimbursement rates to providers are based on the setting in which child care is provided, the age of the child, and

the number of hours the child is in care weekly. If a family is eligible for 100% of the subsidy, the state will reimburse providers based on the table below:
