DISASTER SUPPLIES CHECKLIST

Every family needs a disaster supplies kit filled with items needed to help keep all family members safe and healthy during an emergency. Store enough of each item to last at least seven days. Be sure all family members know where the kit is located and when and how it should be used. Update your disaster supplies kit regularly to replace expired food or medicine or outgrown clothing items. Get children involved in putting together the disaster supplies so they can learn the importance of being prepared.
